## Project overview

The Morgan Offshore Wind Project Generation Assets (known as the 'Generation Assets') is a proposed offshore wind farm located in the Irish Sea approximately 22km from the Isle of Man coastline, and approximately 36km from the north west coast of England. The project is being brought forward by a joint venture between bp and Energie Baden-Württemberg AG (EnBW) and is expected to be operational by 2030. The project's wind turbines are expected to generate enough low carbon renewable energy to power the equivalent of over **1.5 million homes**.

The proposed Generation Assets will comprise wind turbine generators and offshore substation platform(s) and would be fixed to the seabed with foundation structures.

The electricity generated by the wind turbine generators would be transported to the national grid via the Morgan and Morecambe Offshore Wind Farms: Transmission Assets project (known as the 'Transmission Assets') (together with transmission infrastructure for the Morecambe Offshore Wind Project Generation Assets).

Visit [www.morecambeandmorgan.com/morgan](http://www.morecambeandmorgan.com/morgan) to find out more about our proposals. We encourage you to complete this feedback form while referring to a number of other resources designed to help you understand the project in further detail. These are available to read on our website, at consultation events, and at a number of reference locations across the project area.

Please note that there are two other wind farm projects in the Irish Sea currently carrying out statutory consultations:

- **Mona Offshore Wind Project**, also being developed by bp-EnBW: [www.morganandmona.com](http://www.morganandmona.com)
- **Morecambe Offshore Windfarm Generation Assets**, being developed by Cobra Instalaciones y Servicios, S.A. ("Cobra") and Flotation Energy Ltd: [www.morecambeandmorgan.com/morecambe](http://www.morecambeandmorgan.com/morecambe)

## Accessibility

Should you require any of our consultation materials in a more accessible format, please contact us by email at [info@morganoffshorewind.com](mailto:info@morganoffshorewind.com) or phone at **0800 915 2493 (option 1, open 9am-5pm)**.

## The consultation

**Our consultation is now open and will run from 19 April to 4 June 2023.**

Your feedback will help us develop and refine our proposals. The proposed Generation Assets project will be submitted to the Planning Inspectorate and will be decided by the Secretary of State for Energy Security and Net Zero for a Development Consent Order (DCO), in accordance with the Planning Act 2008.

Once the consultation has closed, we will carefully consider all the feedback we receive as we continue to refine our proposals further. A Consultation Report summarising how the feedback received has been considered will be produced and submitted as a part of our DCO application.

## How to respond

Please complete this feedback form and return it to us using our freepost address: **FREEPOST MORGAN**. Simply fold and stick your response form with the freepost address on the front and put it in your local post box. There is no need to use a stamp.

As well as completing this feedback form, you can also submit feedback using the following methods:

**Online:** Complete this feedback form online by visiting [www.morecambeandmorgan.com/morgan](http://www.morecambeandmorgan.com/morgan). Or leave a comment on our online consultation feedback map. The mapping tool allows you to leave comments at specific geographical locations.

**Email:** Send your response to [info@morganoffshorewind.com](mailto:info@morganoffshorewind.com).

**Post:** Write to us at **FREEPOST MORGAN**.

Should you have any questions or require more information, please visit our website [www.morecambeandmorgan.com/morgan](http://www.morecambeandmorgan.com/morgan) or call the project team on **0800 915 2493 (option 1, open 9am-5pm)**
